

RTGFSC Chipping Request Form

Name _____

Address _____

Cell Phone # _____

Please remember: **To participate in the RTG chipping program, you must:**

- **Have paid RTG HOA 2026 dues. The RTG HOA spent \$9437 in 202 for removing 90 cubic yards of chipped wildfire fuel.**
- **Pile brush and tree limbs (5 in diameter max) with cut ends facing out along the road/street in piles no higher than 5 feet. No large tree roots or stumps.**
- **Put no dirt, metal, grass, leaves, pine straw, poison oak, genista, cactus, ice plant, construction debris, or palm fronds**

Chips can be left where their piles were located, but **full loads only** can be dumped upon request of the chipping crew.

Residents must complete this chipping request form at least 10 days prior to the scheduled chipping dates and return it to your Division Captain, the free library (Completed Chipping Forms), or send to Dave Wisherd; dwisherd@yahoo.com. You may also pick up new chipping forms at the free library or download them from the Fire Safety section of the RTG website: rtghoa.org/fire/

Also, please remember to record your landscape mitigation work hours and costs in your 2026 Firewise Volunteer Worksheet. This may include contractor hours and costs, as well as the cost of renting equipment, for the chipping material that was collected. Keep your Volunteer Worksheet up to date by recording mitigation, education, or any fire prevention activity as it occurs. All resident hours and costs must be reported to Firewise® each year to maintain our certification.

The chipping will be in June and October. Specific dates for chipping and request deadlines will be announced on the website: rtghoa.org and by RTG entrance banners.
