

To all Rancho Tierra Grande residents

The RTG Fire Safety Committee would like to thank you for your efforts and participation in our 2023 Firewise community program. For the fourth consecutive year we are again Firewise Certified. This results in improved individual and community safety combined with home insurance discounts.

Some key Firewise accomplishments in 2023 were:

- **144 homes recorded** which is 69% of our 208 RTG properties. This is an increase over 2022 results.
- 7909 labor hours reported for wildfire mitigation activities. This is **55 hours of resident work per home**.
- \$642,498 spent for property fire resistance improvement. This is **\$4462 per home**.
- **90 cubic yards of Chipper material** collected. Service paid for by the RTG HOA.

Well done everyone!
